## NEWSLETTER OCTOBER 2010

### MARK TODD SUPPORTS HOLSTEINERS

In the October edition of NZ Horse & Pony, Mark Todd is reported as saying that “The type of horse required to be competitive at the top has also changed. ‘You need a horse with more warm blood. The stamina requirements are different today for the short format. I’ve had to get used to riding a different type. They move better and show jump better, they don’t gallop the way I liked working with the thoroughbred’s mind, the warmblood’s mind is slightly different, but I’m getting used to it’” NZ Horse & Pony Oct’10 Page 26

**Of the 6 horses in Mark’s current string, at least 3 are Holsteiners.**
